The VACUETTE

No
Electricity

An Amazing
Success!

The drudgery of sweeping with brooms, the inefficiency of the old fashion sweepers and the expense of using complicated devices has been ended in more than 1,000,000 American homes by the wonderful VACUETTE.

OPERATES LIKE AN ELECTRIC

But no electricity, wires, sockets or other attachments.

The action of the VACUETTE is positive and automatic—it requires no electricity. Just a light push and its suction fan generates a powerful air current which draws every particle of dust, dirt and lint and makes the carpets look as good as new.

NOT AN EXPERIMENT
A proved device of unusual merit.

The Model C Improved Vacuette is the result of years of experiment by its makers. It has been operated beside the most expensive and most reputable sweeping devices on the market and it has produced results absolutely unsurpassed. IT WILL BE TIME WELL SPENT IF YOU WILL CALL MAIN 2985 FOR THE FREE DEMONSTRATION.

The cost of the Vacuette is within the reach of every pocket book.
